

## Switch Accessories

SMC1GSFP-SX, SMC1GSFP-LX, SMC1GSFP-ZX, SMC10GXFP-SR, SMC10GXFP-LR, SMC8700S-30, SMC8700S-130, SMC8700S-300, SMCXFPMOD, SMC10BTMOD

## OVERVIEW

Network ecosystems contain multiple types of technologies designed to accomplish various objectives. Network accessories are the glue that holds everything together, allowing these technologies to connect or to enable long distance networking, stacking, or increasing bandwidth. At SMC\Edgecore we provide a wide range of accessories including transceivers, modules, and stacking cables designed to enable user flexibility and performance with every network connection.

As a provider of advanced technology, SMC\Edgecore provides state-of-the-art accessories designed to optimize network performance. Modules for switches can be used across various switch lines, while our IEEE 802.3an (10G Base-T) is the latest in a line of technologies that allow users to expand bandwidth without changing copper cabling infrastructure. Accessories are designed to enable users to effectively connect networks while improving cost of ownership. At SMC\Edgecore we improved customer experience by creating interchangeable accessory parts that enhance and simplify the network ecosystem connection points.

## TECH SPECS

STACKING CABLES	DISTANCE	CABLE TYPE	CONNECTOR	APPLICATION
SMC8700S-30	30cm	Copper	Proprietary	Switch to switch in same rack
SMC8700S-130	130cm	Copper	Proprietary	Loop back from top to bottom in same rack
SMC8700S-300	300cm	Copper	Proprietary	Switch to switch between racks
10G TRANSCEIVERS	DISTANCE	CABLE TYPE	CONNECTOR	APPLICATION
SMC10GXFP-SR	300m	Multimode fiber	LC	10G Fiber uplinks based on distance required
SMC10GXFP-LR	10km	Singlemode fiber	LC	
SMC10GXFP-CX4	15m	Copper	CX4	10G high performance short distance uplink
1G TRANSCEIVERS	DISTANCE	CABLE TYPE	CONNECTOR	APPLICATION
SMC1GSFP-SX	550m	Multimode fiber	LC	1G Fiber uplinks based on distance requirements
SMC1GSFP-LX	10km	Singlemode fiber	LC	
SMC1GSFP-ZX	70km	Singlemode fiber	LC	
MODULES	CONNECTOR	APPLICATION		
SMCXFPMOD	1 XFP slot	Flexible uplinks based on standard compliant XFP transceivers		
SMC10BTMOD	1 RJ-45	10G BASE-T connections to switches or servers		

## KEY FEATURES

STACKING CABLES	Special stacking connections for reducing oversubscription and enabling performance enhancements
	Dedicated bandwidth for non-blocking stacking
	Extended cable lengths for top and bottom of rack stacking or stacking between racks
TRANSCEIVERS	Designed to meet the highest industry standards and quality
	Support for a variety of distances and speeds
	Support for both Multimode or Single Mode fiber cables
	Support for various connector types
10 GIGABIT UPLINK MODULES	Flexible 10G support for XFP, CX4, and 10G Base-T (100m over Cat 6A)
	Modules can be used with multiple switch lines
