Product Description

SOPTO SPT-P31TG-LRM is a very compact 10Gb/s optical transceiver module for serial optical communication applications at 10Gb/s. SPT-P31TG-LRM converts a 10Gb/s serial electrical data stream to 10Gb/s optical output signal and a 10Gb/s optical input signal to 10Gb/s serial electrical data streams. The high speed 10Gb/s electrical interface is fully compliant with SFI specification.

The high performance 1310nm FP transmitter and high sensitivity PIN receiver provide superior performance for Ethernet applications at up to 220m links.

The SFP+ Module compliants with SFF-8431, SFF-8432 and IEEE 802.3aq 10GBASE-LRM. Digital diagnostics functions are available via a 2-wire serial interface, as specified in SFF-8472.

The fully SFP compliant form factor provides hot pluggability, easy optical port upgrades and low EMI emission.
